

You and Me ©Ashley McMillen

Everywhere I look, there's another crook
Who keeps telling me exactly who to be.
What happened to just being cool?
I don't know.

'Cause these egos, friend or foe?
So many questions, second guessing.
Saying watch my back, but where is that?
I don't know.
You might disagree, but just hear me out.

Baby can't you see? The world is falling apart at the seams.
So, take my hand and we'll go and chase a dream.
At the end of the day, you're the only one I want anyway.
There's no one else I'd rather have by my side,
Just you and me and a crazy dream.

Can't afford a dime, feel like I'm out of time
To live the good life, so I just might
Pack my bags and ask you to run away.
These opinions, all so different.
Who to listen to? Is any of it true?
You might disagree, but just hear me out.

Baby can't you see? The world is falling apart at the seams.
So, take my hand and we'll go and chase a dream.
At the end of the day, you're the only one I want anyway.
There's no one else I'd rather have by my side...

Baby can't you see? Everything's changing, nothing is staying.
Can't you see? You are the reason I believe.

When the world's not fair, you're right there.
What would I do without you?

Baby can't you see? The world is falling apart at the seams.
So, take my hand and we'll go and chase a dream.
At the end of the day, you're the only one I want anyway.
There's no one else I'd rather have by my side,
Just you and me and a crazy dream.
You and me and a crazy dream.
